THIS IS WHAT ONE OF OUR CUSTOMERS SAYS:

"WHEATON, ILLINOIS.
"You ask if the 4 C. P. lamps sent me are giving satisfaction. Am pleased
to state that they are entirely satisfactory. I have been placing these lamps
in a great many houses and in one that formerly had about thirty-five 16 C. P.
lamps; took out their 16 C. P. and substituted 4, 6 and 8 C. P., about one-third
of these being 4 C. P. By so doing their lighting bill was reduced one-third."
"WHEATON ELECTRIC LT. & PR. CO."

It will pay all consumers to consider the use of these lamps. They give all the
light needed for halls, closets and closets. Send for prices.

MOVE YOUR FACTORY TO CHICAGO HEIGHTS,

Where you will have the combined advantages of thirty-eight railroads (with shipping facilities unequalled in America
cheap fuel, free water, free switching facilities, free factory sites, electric light, electric power, an abundance of raw material,
and Chicago freight rates to and from all points. Three switch engines are kept constantly on hand for the pur-
pose of serving the industries. Again, and greatest of all, Chicago Heights is the center of population, and it is the
largest railway and distributing point in America. During the past two years twenty-two manufacturing plants have moved to
Chicago Heights, and many others are negotiating with us for locations. We own 4,000 acres of land at this place, and
have arrangements completed whereby we keep fifty vacant houses in advance of the demand, which may be rented by
the workmen at from \$5 to \$6 per month, or purchased at \$10 cash and \$10 per month thereafter. We aim to encourage
the workmen to purchase homes, and our easy payment plan places it within the reach of all to become their own land
lords and stop paying rent. Chicago Heights has hotels, banks, schools, churches, city water, electric light and power
telephone service, macadamized streets, handsome dwellings and beautiful parks, walks and drives. It is the one place
in America where Nature and Science combine to reduce the cost of production and cheaply distribute the products of
the factory to the consumer.
